

Kain is known as the greatest swordsman of the Knights of Exire, a small but impressive group of warriors determined to protect the city from the Demons that now roam the area.

The Demons are getting more and more brazen in their attempts to take over the city, so Kain has undertaken a personal mission to find resources and develop his skills even further in order to be able to eradicate the Temple of Sykk, where the Demon leader Asmakai resides.

Kain has inquired and learned about the other monstrous creatures that endanger Novus, and will make it a point to slay them as well should he have the opportunity.
